[Title]

Paper content starts here. Don't forget to indent new paragraphs and cite your sources in APA format!

References

References should be typed here. Your reference page should also be double spaced; sources used should be alphabetized, and there should be hanging indent after the first line of every source. To create a hanging indent, highlight the text you wish to indent and right-click. Then select 'paragraph' - under the "Special" menu in Indentation, select hanging.
